The Rytmik Live Adventure is an adventure-RPG set in the world of Rytmik: Songs of Eternity. The Rytmik are a race of immortal beings who appeared on earth millennia ago. They sang their melodies into the universe, releasing age upon age of time and giving their souls into the hands of those who deserve them the most. Some people, however, misinterpret the Rytmik's songs, and infuse a sinister and evil force in their hearts. These people are called "Users", and the Rytmik souls they use are known as Rytmik Slaves. Most Rytmik Slaves are miserable beings, but occasionally a User will take possession of a powerful Rytmik Slave and corrupt the benevolent creature's essence into an evil being. Suddenly, the Rytmik are trapped in the brutal universe of Loner, and they have to fight to escape. The only way to restore the power of the Rytmik is to close the holes in the world and collect their souls scattered throughout it. But on the last day of the world, something happened! Despite the incursion of the User, Rytmik Souls can suddenly appear in places they've never been before. These Rytmik Souls might know of a way to escape the Loner. It's up to you to help Rytmik slip away from the grasp of the Users and the Loner!
