Move, rotate and zoom through your design using camera view. AutoCAD 2023 is the next-generation release of the leading-edge drafting and design software for AutoCAD, AutoCAD LT, and AutoCAD Web App. This new version of AutoCAD brings together many industry-defining innovations, including new and enhanced capabilities to import your own CAD files and marking and auto-complete functions. New features in AutoCAD 2023 include: RAPID IMPORT Add a feature to import sketches from paper or digital PDFs with Adobe® Acrobat® and Microsoft® Word. Add the ability to set a specific custom boundary when importing a paper sketch. Allow users to adjust the custom boundary in a few clicks in the sketch so that the sketch boundaries are automatically set to a customizable size. Add the ability to specify where to find the file to be imported when you are prompted by the import dialog to browse for the file. Imports now support editing of the imported markings. If you can read the drawing, you can add it to the drawing. Importing from PDFs is supported in DesignCenter as well. With a click of a button, design your schematic symbols, place them on your drawing, and export it to a PDF that is compliant with AutoLISP. (video: 1:15 min.) Create an association between a CAD drawing and a specification document (e.g., a job order or construction drawing) that you can use to quickly import a set of specifications into the drawing. With a click of a button, use the Property Assistant to set up the new drawing and save time without the need for complex drawing steps. The user interface has a new overall look, with simplified dialog boxes and a new flyout menu. A new navigation toolbar allows you to do many actions with just a click of a button. The ribbon's navigation panel has been rearranged to be more intuitive. The ribbon has new color coding for improved visibility of each tab. The ribbon's toolbar now has similar icons for all commands, and commands can be grouped to help find a command quickly. Additional documentation is available online for all features.
