The Game was released in 2014, its hero was a young boy named Philip. Under the rule of a vampire group that was trying to bring vampires back to life, Dr. Gray (a human working for the "direwolves") the protagonist of the story, looked after the vampire Duncan. But Duncan was actually a vampire turned into a human by the vampires. But one day, while the boy followed the vampire, he was bitten by a vampire and he developed the ability to become a vampire if blood is taken. There is a brief story that leads to the 3 main quests, where the player character is to buy the items and energy required to survive. This is done as you play through the game, so it does not force any player to complete 595f342e71
