Our first VR video game is about puzzles, isolation, mystery and a scientific experiment gone wrong. The unnerving journey will keep you on your toes. - You are the driver of an ambulance, traveling into a life-like environment. In search of new clues, you're baffled by new puzzles along the way. How to play: - Open and start the game, find your wife and child in the abandoned building, trigger the ending. - Solve the puzzles. - Go outside and look around, collect items and medikits, but be careful! There's a monster roaming the hallways and strange things hiding in some of the corners. - Open the documents, there might be some help and hints inside. - Exit the building and get in the ambulance. - When driving into the parking-lot, pause the game. - Save your game. - When you're done, look at the map on the door to find out how to get out of there. - Remember to save your game. You will need to do this next time you play. You're playing on Newgrounds and you have to save your game here after you complete the whole game. ## **Train Simulator: Liverpool-Manchester Route Add-On Features Key:**

A new Mission Maker non-linear adventure that stretches time by centuries and extends space by intergalactic distances.

More missions

More capture points

Easier navigation

An Expreview update!

## **Playing Mission Maker**

Released in September 2014 through Halfbot, Halfbot now powers the New Frontier on Halfbot.com. Players can drop into missions with or without tutorials, solving every puzzle from the first play, or you can click over to our friendly tutorial at the halfbot learning center and get up and running, even if you've never played the game before.

From there you can start and finish your game, and open up a repeatable "In Loop" debug mode, enabling you to set boundaries for testing. You can store your progress, and click saved games to replay old adventures. And if you're feeling adventurous, pick your own goals. With the game's open-ended editor, you can create your own experiences and goals.

Once on a mission, play every puzzle you can.

When you complete an adventure, play it multiple times to get that perfect score!

New Horizons

Halfbot acquires independent developer BlissDrive Game Studio with the New Horizons launch, growing our indie game portfolio to about 30 games that drive 80 million monthly players.

---

But that portfolio, and the opportunities it offers, are just the start. We're continuing to support the Halfbotbase ecosystem of mobile apps and the download game service, Halfbot.com, to grow a robust, revenue-generating platform for indie developers.

We've created a developer portal, which gets you started with a self-serve database and auto-installed game icon. If you have a game or need to add a new one, it's really easy, and you don't need to even upload an app.

All elements that make the game enjoyable are carefully balanced and structured into individual gameplay elements. Gameplay Elements: - Play different puzzles levels that challenge your brain - Play with friends, challenge each other or collect scores - Collect all achievements to achieve a high score - Puzzle elements: - Dice Blockers: Throw dice to block the moving dots. - Rivet Shields: Move and rotate the Rivet Shields in different directions - Rotators: Rotate the dots around the squares. - Shape Shifters: Move the shapes in a very clever way. - Grabbers: Move the shapes to a position where they don't block the dots. - Slide: Move the shapes with a slider. - Rotate: Rotate the shapes around the center. - Settings: - Use the mouse to place and move the shapes. - Use the middle button to move the dots in the default way. - Use the right and left buttons to rotate the dot counterclockwise or clockwise. - Game Modes: - Race: Play 15 puzzle levels to challenge your brain. - 4x3: Play a 4x3 puzzle in each of the 72 levels. a large dataset. If you find your answer in the past, you know that it's not true anymore. If you find your answer in the future, you know that it's not true in your time. I watched a movie at a nearby movie theater last week called, "The Purge." The premise of the movie was that for one night a year the government would ban all crime, so that people could find out what really happens when all the rules are off the table. I saw it two years ago, and in retrospect, it seems prescient. The movie was making a movie about a topic that's already going on in our lives. We even have a handful of laws like California's AB109, which is an law that allows children as young as 13 to be prosecuted as adults. The movie had a strong message, but I thought it wasn't as well-written as it could have been. So in the interests of improving the final product, I gave it some feedback in the comments section, and I realized that I'd probably seen these ideas elsewhere, and maybe this should be in a separate blog post, rather than the tip of this.

## **What's new in Train Simulator: Liverpool-Manchester Route Add-On:**

**Warriors & Castles is a puzzle game where you build a castle and defend it against other players. The game is fairly simple, but the details are there. As you play, you will build towers, walls, gates, draw up fortifications and build defenses to make sure you can keep your castle safe for a long time, even from other players. The game is fairly modest in its visuals, but what you see looks good. The gameplay and visual appeal tie together well to make for a fun experience. Warriors & Castles on Google Play The Warriors & Castles game creates a great feeling of satisfaction when you achieve a milestone in your castle. The first set of achievements in the game show different speeds and difficulty levels for children. The second level of achievements gives you the chance to excel at the game with higher levels of speed and deeper gameplay. The options are easy to access from the first level and allow you to customize certain aspects of the game which gives it a touch of creativity. My favorite mini-game in the game gives you the chance to create obstacles in the path of other players. The mini game creates a sense of accomplishment when you pull it off and gives you a chance to intimidate your opponents. The game offers up a quite a bit of functionality such that you can build your tower just for a single player or team up against bots at certain levels. The game presents you with a set of towers, gate guards, drawbridges and walls such that you are able to build your castle. You will have to choose from a variety of different components to build your castle. You will have to choose from a variety of different options to define your walls, towers, ramparts, drawbridges and fortifications. You will be able to customize the appearance of the castle to match your own style or to match your devices. Warriors & Castles Android Game Review The Warriors & Castle game is available on Google Play for Android devices. You can play as a lone adventurer or team up with a friend and work together to create an intriguing castle that can withstand any other player's attacks. You will start building with basic materials, but as you unlock new materials and build defenses into your castle, you will be able to go up a level and use even more powerful materials. You will**
