computers and technology? Dinotopia clean sweep pulsar glow under the radar a constructive claimant under Section 109(b) of the Revenue Act of 1921, as amended, 26 U.S.C.A. § 207(b), the petitioner must stand upon the plain and undoubted language of the statute. We are not dealing here with an ambiguous statute or with an ineptly drawn statute, but with a clear and explicit statute, which upon its face purports to be the law, and which the petitioner is charged with knowledge. The decision of the Board of Tax Appeals is sustained. Q: Delete an element of a collection inside the observable stream I have this code: public class Address { public Address() { LyingData = new List(); this.Keywords = new HashSet(); this.KeywordIds = new List(); } public int Id { get; set; } public string City { get; set; } public string AddressType { get; set; } public string PostalCode { get; set; } public string Country { get; set; } public bool IsDefault { get; set; } public ICollection LyingData { get; set; } public HashSet Keywords { get; set; } public List KeywordIds { get; set; } } I need to delete all addresses where "city" attribute is null and "country" attribute is null or empty. I use this code: var addresses = from a in context.Add
