### What's New In?

Polaroid Picture for Windows Live Writer is a simple image tag that will let you upload, crop, and mark up pictures from your personal folders or any computer on your network. With the help of the popular Polaroid Picture software, you can drag and drop picture files from your network, or other computer on your network or even the Internet, to the Polaroid Picture for Windows Live Writer and enhance your web page. You can also edit and modify the tags associated with your pictures. With Polaroid Picture for Windows Live Writer, you will be able to tilt, crop, crop and rotate any of your pictures without the use of a Webcam. Plus, you can add text or even HTML code to your photos. SpacesBlog Watch inspirational videos, listen to music, show off your work, and learn about latest trends with the addition of YouTube to SpacesBlog. Requirements: □ Windows Live Spaces 4.0 or later □ YouTube You will be pleased with all the options and features that YouTube provides. Here are just a few of the features of YouTube integration with SpacesBlog: • Watch inspirational videos. Just simply search for a video on YouTube and your browser will go to YouTube, where it will automatically search for a video and play the video. • Listen to your favorite music. Just navigate to YouTube and search for music. Your browser will then display a list of the songs that match your search. You can then search for a specific song. Your browser will then automatically go to YouTube and play the music from that song. If you want to change the music, you can just click the button for a different song. • Explore new trends. Why not discover what is hot and trending all over the web? Just search on YouTube and you will see a list of videos under the last few weeks and months that have been uploaded. These videos are sorted in a new way that is just great for browsing. • Share your work. Have your friends and family see what you are up to on the web? Just create a new SpacesBlog and add a blog post. Then just add a YouTube video to your blog post. Your readers can now watch your YouTube video and see your post in front of them. • Download videos. For those videos that were not part of a blog post, just right-click the video and choose "Save video as..." to download the video to your computer. You can also save the video to a playlist with all the other
