CONTRIVED YOUR LIFE? HOW TO RENEW SELF-CARE AND BE SURE YOU CAN KEEP TRYING It is never too late to make a change in your life. You can make changes that will improve your self-care, your life, and the life of those around you. One way to make a change is to practice self-care. Self-care is all around us, but we don't always give much thought to it, especially when we feel so good and healthy. A nice massage or some time for yourself can do wonders. Self-care comes in many forms. Self-care is important for your physical health, your emotional health, and your relationships. Self-care also comes into play when you are trying to achieve your best in the educational arena. How can you keep at it if you haven't given yourself the time and the space to refresh yourself? There are so many ways to practice self-care. Here are just a few suggestions that can benefit you and those around you: 1. Give yourself time to do nothing. When you feel like a busy mother, go for a walk and try to do nothing. Really. You need to stop and rejuvenate your batteries. Take a walk through the park, go for a swim in the ocean, go visit a friend, and walk by the beach. 2. Do something that is called relaxing. Relaxing isn't just the act of falling asleep. It is the feeling of being refreshed after a good night's rest. It is the feeling of being refreshed when you wake up in the morning. 3. Repeat a mantra. You could use your favorite sayings for mantras. However, you may want something a little more challenging. For example, you could use a mantra that goes something like this: "I love life. I love being a

Never Miss A Shot! The Rounds in Range Royale are timed. Timed? Yes, accurate shooting is everything in battle. Our reactive rounds will give you that vital second to line up your shot, then hit the target. Each game round is made up of three critical timings: - ROUNDTIMER - When the rounds are exchanged - READY-TIMER - When you press the trigger - TARGETREADY - When the target is fully uncovered and ready for your shot Your ROUNDTIMER and READY-TIMER are permanently locked for each round. This allows you to focus on perfecting your timing. Your TARGETREADY is only locked until you click the button to start shooting. This allows you to race into your targets if you are faster. At the same time, it also gives you a chance to adjust your aim if you are slower. If you miss, your target will be covered for the next round. If you miss after that, you won't be able to shoot in that round. Hitting Your Target To hit your target you'll need to penetrate its cover, with 0-1 hit (head, chest, legs) to the center of mass. This doesn't matter in the Timed mode, but in the Solo mode you get a single hit point. Each target is further divided into the three parts of the body. A bullseye is a single hit. Use your timings to hit your target in the chest, knees, and legs. Chest (Hips) - Shoot for where the best concealment is. Your chest-shots can penetrate any cover. Knees - The fastest-moving part of your body, your knees travel rapidly. Therefore, your best bet is to target the legs. Legs - The legs are large targets, and therefore, are most vulnerable. When possible, aim for the legs of the "lobster" portion of the target. You get one shot each. The best order is as follows: Chest Knees Legs That last shot of a leg is a chest shot. If you miss the chest, at least you will stop that joint. Tap For Aim Timed Mode In timed mode you have a limited window of time to rack up rounds. The timer resets when you get a headshot or miss. This means you only have a certain number of attempts. Single-Shot Mode When
