There is nothing to worry, the BitTorrent is being developed with a great speed. You have no idea what is going on in the team of BitTorrent. Because of the daily news that comes out of the team, the whole world can see the enthusiasm with which BitTorrent team is working. Until today, I am the only one in this part of the world who is confident about the platform of the development. Now, it has been joined by BitTorrent. The world is enjoying this. This is not something to share but to take advantage of. Today, we have the opportunity to develop an entertainment platform.

There is no other app of entertainment. Do not believe in any other blockchain. Blockstack doesnt have anything. Blockstack is simply a UI with blockchain. Also, I am confident that the founding team of BitTorrent will complete the development. I dont think that there will be any difficulties in this. If anything happens, BitTorrent will be on one of the top five platforms. This is different. You know, this is a bit of excitement. Because our expectations are not different than those of the industry. If youre here, youre here to compare the expectations of BitTorrent with those of everyone else, including the expectations of the industry. BitTorrent is one of the largest

companies in the world. And its presence in the industry is not like the presence of other companies. It is something to be proud of.
