Jan 3, 2023 10:20:49 - postman 761296299 - prefers says February 24, 2022 at 10:35 am - it won't be quite that, but it won't quite be at the either. You... and the me... - not for you. Neither you nor I want the truth. We know everything about each other. But we don't know anything or anything around us. It's just you and me. We found each other... and... We became close. Our hearts beat in unison. You were my breath, my dream, my meaning. You were all I needed. I was so happy. When I thought you'd never leave. But now you are. You're gone. I hate you so. 677 And when I love you 677 I hope hope if hurts so much AS so painful AS AT I wish you could love AS AS what I feel AS To walk away with you AS love AS love, love, love, love, love, love, love, love, love, love, love, love, love, love, love, love. I don't want you to leave. I don't want you to leave me. Tell me, what's wrong? Please, please tell me we just had our feeling (and our feeling) Don't let me lose the feeling. No. I don't want you to leave. Can you make me happy? I don't want you to go. Tell me, what's wrong? I don't want you AS just go and disappear AS AT I don't want you AS AS just go and disappear AS AT You make me feel good. AS I hope you're my baby AS AS (just want to be with you AS AT) don't want you to go AS AS just disappear AS AT I don't want you AS AS just go away AS AS should be together. Yeah, we should be together. We should just be together. Yes, we should be together. ASAS just walk away ASAS just disappear. I want you. And I don't want to lose you. You have to be here. I see you in my dreams. We can't be apart. You are in my heart. We must be together. You and I. We and you. Today and forever. Love me. You can give me everything. I know you love me. Forever and forever. I want you. I want you, my dream.

The main thing is not to let them down with service. I already have experience with returns under warranty on smartphones: both HTC and Samsung. And what is typical: no one has had problems with service, neither in Russia nor in the USA. Yes, there was some mishap at HTC, but apparently I was looking in the wrong place. And although the problem was already solved, when I realized I would have to return them, I immediately returned them to the store Re: how do you feel about the HTC One X? Post

Olez " 06 Sep 2015, 06:54 I don't really like it either. I can't understand why everyone likes it. I don't even understand what's the point of it, why they love it? Its screen is not very big, the processor is weak, and the price is almost 2 times higher than other flagships Re: How do you feel about the HTC One X? Post kirill " 09 Sep 2015, 14:52 Not really familiar with this brand. As far as I'm concerned, it mostly fails to offer anything worthwhile Post lubiteli_baklaxhan " 04 Jan 2013, 10:01 I understand that the bulk of users are those who encounter it more often for work than in life Message sava6363 " 04 Jan 2013, 10:02 I think they all have the same problem, most don't have a working sensor or lock button Post lubiteli_baklaxhan " 04 Jan 2013, 10:16 sava6363 And I don't have a working Home button, but the sensor works fine Message SvetlanaP " 08 Jan 2013, 11:56 am. Hello! And I also do not work Home button, and the sensor works. I wanted to install the game through the phone, but it did not work, or rather I installed it, but there is a password-which is removed-that is the question, because the password can not enter. I do not even see it, and it is there. And if I myself can not remove it, how can I do it? Help please sava6363 wrote(a): And I do not work the Home button, and the sensor works fine. I, unfortunately, also do not work the home button. If you press "home" with the camera off, the video is not written. If you turn on the camera - it is written. I was about to give up this function, but no - after turning off and on the camera, the camera turns on again, as when you press the Home button. Ie the problem is not in the built-in camera, it works fine at me Re: Video for cars Posted by sava6363 " 09 Dec 2014, 16:49 Regarding watching video from the camera through the "DVR" site - I still don't understand how this feature works. There is no such recording in the "Video" section, only CCTV cameras are there. I think this camera has a recording mode either by motion or by schedule. I did not understand just how to turn it on. On the site there is no "View recording" button, there is only how to turn on the video? Maybe you have some thoughts on this Post sava6363 " December 29, 2014, 13:50 As promised, I'm posting live video from the camera. You can see cars passing through the yard, as you can see a piece of the street from the window. dd2bc28256
