Can someone explain in plain English, what I am doing wrong? I am trying to take the first 3 items that match the query words and write them to a list. `d2 = {'bmw':[1,2,3,4,5,6], 'ford':[4,3,2,1], 'fiat':[2,1,3,4,5,6]}` `query_words = ['bmw', 'ford', 'fiat']` `filtered = sorted(d2, key=lambda v, i=0:v)` `keyword = list(filtered.keys())` `keyword = [item for item in keyword if item in query_words]` `print(keyword)` so in this case it should just return a list with the 3 items that match 'bmw', 'ford' and 'fiat' A: You would like to implement the following logic for your collection: When the user provides a search query for a string x, and you don't find a string with the same x in the collection, we'd like to return (the first string that

This album is part of the revival of Mandisa in 2014 with the release of her 5th Studio album, 'Out Of The Dark'. Description: Mandisa's 2005 album "Songs From The Shack". Produced by Mandisa, Bethany Black and Wayne Haun. A surprise album that is a collection of songs about the Shack and a soundtrack to a movie inspired by the same name. View Mandisa's music profiles on AllMusic — covers the albums, artist, albums, artists, song titles, and genres of Mandisa's works and biographies. Mandisa is a contemporary Christian musician (CCM) songwriter, singer, and worship leader. She rose to popularity in the mid 1990s with her three consecutive singles — "Lean On Me", "There Is A God", and "God First". "Lean On Me" was the most popular and highest charting single from her first album, Introducing Mandisa (1995). She released her second album, Songs From The Shack, in 2005, which contained the songs "Lean On Me", "There Is A God" and "God First". In 2014, she released her 5th album Out of the Dark that contains several re-recorded versions of her previous hits. The choir featured on the recording of her fifth studio f988f36e3a
